

Filming Exercise - "I've had enough!"

Prepare a shooting script (shot by shot description) of this scenario.....

A girl is sitting working on her homework when the mobile phone on her table suddenly rings. She answers it and says..."I told you not to call me today...what do you want?"

She listens then says "No!" and hangs up.

As she goes back to her work the phone rings again.

She see who it is. This time she doesn't answer it but gets up, angry... and leaves the room, goes downstairs and outside where she sees a boy waiting for her. She goes up to him angrily. We watch from a distance as they argue and then the shot fades.

Then shoot and edit it...

Remember ; use your shots to tell the story.
